4. Customers with characteristics of vulnerability

Our Holiday Let products are designed for borrowers aged 18 or over.

These customers typically have a lower likelihood of including some vulnerability characteristics however, we have dutifully considered the needs, characteristics, and objectives of Holiday Let customers with characteristics of vulnerability at all stages of the design process.

Holiday Let customers may not understand there is a more limited mortgage market versus standard residential mortgages and the potentially limited product choices made available to them.

Our Holiday Let product range is frequently assessed to ensure it continues to meet the identified needs, characteristics, and objectives of the target market and are operating in the way the Society intended.

We have in place a framework to achieve good outcomes for vulnerable customers, which includes:

- Education and training for our staff to ensure they have the appropriate skills and experience to recognise and respond to the needs of vulnerable customers.
- Suitable customer service provision and communications available to support customers either directly or via Broker.
- Monitoring to ensure we continue to meet and respond to the needs of customers with characteristics of vulnerability.

Intermediaries should continue to comply with your obligations to ensure that you treat customers in vulnerable circumstances fairly.

If you believe an SBS product is causing harm to those with vulnerabilities or otherwise delivering poor customer outcomes, please notify us via BDM@scotbs.co.uk

Please contact us if you need any further information about how we support the needs of all our customers in relation to our Holiday Let product range. Help and support is available via ScottishIntermediaries@ScotBS.co.uk or directly via your BDM, whose contact details can be found [here](#)

5. Our assessment of value

We have developed a comprehensive and robust assessment process which evaluates several aspects of our business to determine the value of our mortgage product. This analysis is used to ascertain whether our Professional products deliver fair value for customers.

The outcomes of the assessment process have been presented to Operational Risk Committee, allowing for challenge and further investigation before the process was officially agreed.

Our fair value assessment has considered the following:

Benefits	Price	Costs	Limitations
The range of features that the Product provides, the quality of the Product, the level of customer service that is provided and any other features that the Product may offer.	The interest rates, fees and charges customers pay for the Product, comparable market rates, advice fees paid to intermediaries and non-financial costs associated with operating the Product.	The cost of funding the Product and any other reductions in costs to the customer made possible by economies of scale.	Any limitations on the scope and service we provide or the features of the Product.

Results of our assessment

Our assessment concluded that our Holiday Let products deliver fair value for customers for the target market.
